

# JGI – PeopleSoft Services

## Business and Professional Services Across the Enterprise

JGI is a **Certified Oracle Implementation Partner** specializing in PeopleSoft applications, and is fully prepared to handle your project needs from **assessment through implementation and support**. Our delivery teams are comprised of senior level consultants who bring extensive experience to your project in the area of technology, business process design, data management and reporting analytics. Our team will work closely with your management, business owners, and IT teams to assure an implementation consistent with the software capabilities, business requirements, best practices, and your budget.

JGI's core project methodology incorporates our knowledge of implementing PeopleSoft Human Capital, Financial and Supply Chain applications. Based on our customer's needs and timelines our methodology can be very easily adapted. We utilize a comprehensive planning, requirements analysis, design and testing methodology to ensure that project goals are met in the shortest timeframe possible with the best results.

This proven methodology facilitates a quick start up, an effective process, and an on-time, on-budget project completion.

### Implementation Services

JGI offers implementation services specifically designed for PeopleSoft applications. JGI consultants are seasoned implementation experts, with an in-depth knowledge of PeopleSoft as well as Fusion middleware.

Whether you are a new customer or adding modules into your existing environment, our consultants bring with them a wealth of knowledge and expertise and understand both the technology and business side of ERP implementations. And our flexibility allows us to tailor our services to fit your company's needs and timeframes while still incorporating best practices.

### **Implementation Expertise**

- **Functional Analysis and Design**
- **Systems Integration**
- **Data Conversion**
- **Interfaces Design and Development**
- **Customizations**
- **Testing and Validation**
- **Knowledge Transfer**
- **Reporting**
- **Project Management**
- **Performance Tuning**

### Upgrade Services

Utilizing our upgrade methodology our consultants will compliment your internal staff to minimize the cost of the upgrade. We structure the project to leverage your internal capabilities and only staff where it is necessary. Our upgrade solutions range from basic technical upgrade services to complete process re-engineering designed to optimize the new features of the Oracle release.

### **Upgrade Expertise**

- **Onsite and Remote Upgrades**
- **Dedicated PeopleSoft Lab Facility**
- **Version Upgrades and Migrations**
- **Data and Report Migrations**
- **Infrastructure Design**
- **Staff Augmentation**

### Business Consulting

Your software is only as effective as your business process. Once our consultants have evaluated your business goals and processes, we will design and implement strategic recommendations. This will include streamlining processes, eliminating redundant and non-value added processes. The result will insure your organization takes full advantage of your system's functionality.

### **Business Consulting Services**

- **Business Intelligence**
- **Performance Management**
- **Process Redesign**
- **Post-Implementation Maintenance and Support**

JGI additionally offers **Support Services** to assist you through the entire life cycle of your application.

### **Support Services**

- **Post Production Support (on-site or remote)**
- **Applications Management & Maintenance**
- **Helpdesk**
- **End-User Training**

### About JGI

JGI is a Certified Oracle Partner specializing in implementing PeopleSoft applications. Founded in 1982, JGI drives business value by helping companies nationwide implement, improve, and integrate systems and processes, delivering superior technical skills, and business process optimization.

JGI's management team and consultants have been working with PeopleSoft applications since 1991 and bring to our clients an insider's knowledge of the software. Our team has extensive experience implementing PeopleSoft within the small to mid-market companies.
